## JANUARY WEBINAR MEETING

Thursday January 21, 2021

7pm

### “Ocular Manifestations of Systemic Diseases”

**Terri Baldwin, DVM, MS, DACVO**

Sponsored by

**BluePearl Specialty + Emergency Pet Hospital**

**Two Hours RACE Approved CE**

**Email invitation to register will follow by separate email**

### PRESIDENT'S MESSAGE

Dear PCVMA Members,

Congratulations! 2020 is in the rear-view mirror. I doubt that any of us will be missing last year. EVER! Happy New Year!! We have much to be thankful for. Our profession has proven (once again) to be one of the most resilient industries during not only serious financially challenging times but now during the first world pandemic of our lifetimes.

You and your teams have adapted to the new normal of operating safely that is required in delivering care to patients while experiencing an increased demand for care. This increased demand for our services is gratifying and rewarding, but that same demand and change in operating procedures along with the lack of ability to conduct live meetings is increasing stress and isolation in the industry. This is common feedback that we are receiving from our members as we interact with them. I am hopeful that we will be able to resume our live meetings by sometime this summer as the covid-19 vaccine is more widely distributed. In the mean time we will continue having virtual CE available.

Speaking of CE, our January offering will be a 2 hour RACE approved presentation by Dr. Terri Baldwin from BluePearl Specialty + Emergency Pet Hospital on “Ocular Manifestations of Systemic Diseases”. This will be another virtual presentation on Thursday night January 21<sup>st</sup> starting at 7pm. An email invitation will be coming out soon.

## PINELLAS ANIMAL FOUNDATION

From Jeff Nelson, brother of Elisa Nelson, in spite of the fact that our 2020 6th Annual Spring Fling 5k was “postponed,” we still received significant support from our sponsors and considering the state of the world today, we decided to distribute what money we did receive to our adopted charities on Friday afternoon at the Black Beauty statue in the courtyard of **Elisa Nelson Elementary School**. For those of you who are unaware of the significance of this statue, the name “Elisa’s Greatest Wishes” was taken from an essay Elisa wrote when she was 10 years old while attending this very school. Elisa loved to read and her favorite book was Black Beauty

Dr. Hillary Maedel and Dr. Don Morgan representing the PAF received a \$2,500.00 check from the Sponsors of the “Annual Spring Fling 5K” held each year at Wall Springs Park in Palm Harbor.

## SPC COLLEGE OF VETERINARY TECHNOLOGY

### SPC's Veterinary Technology Pinning Ceremony

SPC Vet Tech graduates celebrated the successful completion of their Associate's degree December 13<sup>th</sup> at our official pinning ceremony. The ceremony was held outdoors at the Seminole Campus. Graduates, family, friends, and faculty gathered to recognize this milestone. Faculty presented student awards and graduates engaged in some dog breed fun. Tradition was upheld with a virtual student prepared video highlighting all the campus graduates and their SPC vet tech journey while enjoying a grab and go lunch. Attendees received a personalized yard sign to share their success.

A well-deserved congratulations to all our 2020 Fall veterinary technology graduates!

We would also like to thank everyone who donated holiday goodies for our animals. They had a wonderful holiday filled with love.

# SPCA TAMPA BAY

## ***Year End Numbers***

As we end the year, we have served over 7000 animals in the shelter including over 2100 native wildlife, despite all the changes COVID-19 has wrought. In addition, we have adopted out 3000 animals.

## ***Year End Wrap-Up***

It's good to see 2020 in the rear view... Like everyone else, we headed into the new year feeling empathy for our colleagues in Australia, with the staff raising a modest donation to send. Next – as the saying goes – and then...COVID. We like so many around the county and Country went through the questions of closing, staying open, curb-side services, all appointments at the shelter. In the end, we stayed open at the shelter and vet clinic and despite changes in procedures, have continued to be a resource for the community. Like everyone, we've had some scares but we've also watched our team become more cohesive than ever. We look forward to the happy things this new year brings. Happy New Year to you and yours!

### **Partridge Animal Hospital - Saint Petersburg**

Seeking a full-time associate veterinarian looking to become part of a team with a heavy caseload, properly equipped facility, and hospitable clients.

About The Practice:

Partridge Animal Hospital is one of the most progressive and modernly equipped animal hospitals in the Tampa Bay area. 2018 was a big year for us as we expanded into a much larger facility (>5000 sq ft) designed specifically to accommodate our large caseload. We are a family-owned practice, deeply rooted in the Saint Petersburg community. Our newly renovated building is equipped with every veterinary "toy" you need to perform advanced diagnostics and see your case from beginning to end. Our ideal associate would have a thirst for learning and a hunger to grow their knowledge base. Our 4-doctor practice has 85+ years of combined experience. We have cherry-picked only the most talented individuals for our staff. Partridge Animal hospital is a place where everyone is passionate about what they do and works together in a fun, family-oriented atmosphere.

Our Facilities:

- Eight exam rooms.
- Separate cat and dog kennels - working on the fear free experience
- No boarding, no grooming, no emergency calls.....just to enhance your quality of life
- Full diagnostic laboratory with IDEXX equipment
- Two fully equipped surgery suites
- Separate dental space with 2 tables
- Digital radiography
- Digital dental X-ray
- Therapeutic class IV laser - We don't kid around - ours is the 60 Watt big boy
- Storz endoscopy. We can scope nearly every orifice
- Ultrasonography: who has 2 ultrasound machines? We do.
- The best staff around

Future projects:

- CT machine
- Expand upstairs and become a 10,000 sq ft facility

Skills and Qualifications:

- Must be able to keep calm and bolus the Propofol.
- Experience with exotics a plus, but maybe not the owner of exotics.
- Must know better than to kiss dogs, but still do it anyways.
- Possess the desire to be part of a team, practice high-quality medicine, and deliver excellent care and communication to our clients. This includes feverishly arguing the hazards of feeding a "raw" diet.
- Looking for an individual to contribute unique skill sets to our zombie apocalypse team.
- Willing participant of "Taco Tuesdays."
- Jane Hamblin, CVT
